About Me

My name is Clémence Powney, and I'm a French-British event and wedding artist with more than 10 years of experience performing in France, the United Arab Emirates and around the world.

I specialize in live painting, sketching, digital VR art, and immersive storytelling, creating personalized artworks that evolve in real time during your celebration.

Drawing from my background as both an artist and a graphic designer, I capture the essence of the wedding through a blend of creativity, sensitivity, and keen observation.

Each service is fully tailored to harmonize with the atmosphere, style, and vision of the wedding.

My mission is to surprise, delight, and leave an unforgettable artistic imprint, turning every moment into a living, evolving work of art.

Work experience

In 2010, I earned my Bachelor's degree in Graphic Design and Illustration in Paris, France, which laid the foundation for my career as a multidisciplinary artist.

Over the past 10+ years, I've had the privilege of working and performing internationally, primarily for corporate events. My live artistic performances have taken me to countries including France, Portugal, the United Arab Emirates, Saudi Arabia, Bahrain and China, where I collaborated with major brands and companies.

These diverse professional experiences have strengthened my adaptability, sharpened my understanding of event dynamics, and enriched the way I capture people, atmospheres, and emotions in real time.

OTHER SERVICES

01

Live PAINTING

During your wedding, the live painting captures the emotion and magic of the moment. Throughout the day, I will paint a key moment in the ceremony, or a photo sent in advance by the bride and groom.

After the celebration, I will refine and finalize the canvas in my studio to ensure a harmonious rendering. Once finished, the work is carefully shipped to the bride and groom, offering them a unique and timeless artistic keepsake of their special day.

Coloring DOODLE

The coloring doodle is a collaborative artwork that evolves throughout the celebration.

Designed in advance with black “doodle” illustrations and words dear to the bride and groom, guests will then add their own touch of color, resulting in a unique and meaningful collective creation.

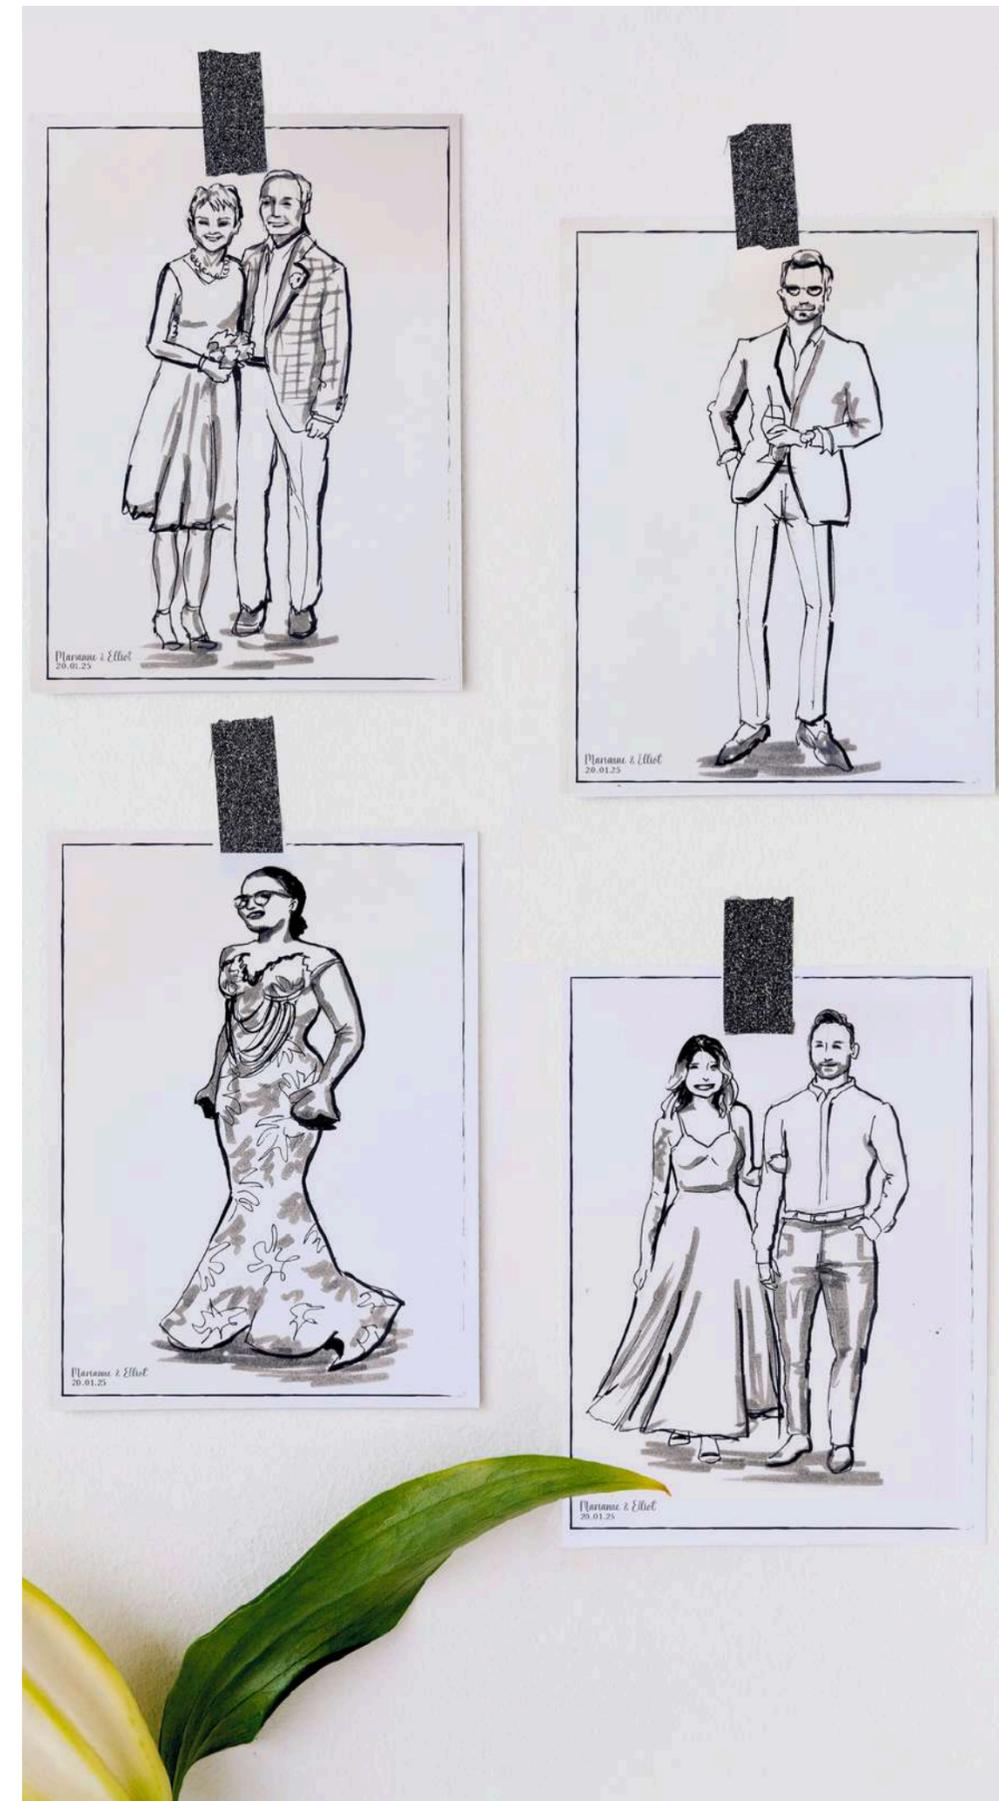

03

Live SKETCHING

Live sketching your guests at a wedding is a wonderful way to make them feel special and add a fun, interactive element to your celebration.

Each sketch becomes a personalized keepsake for them to take home, making your wedding truly unforgettable.

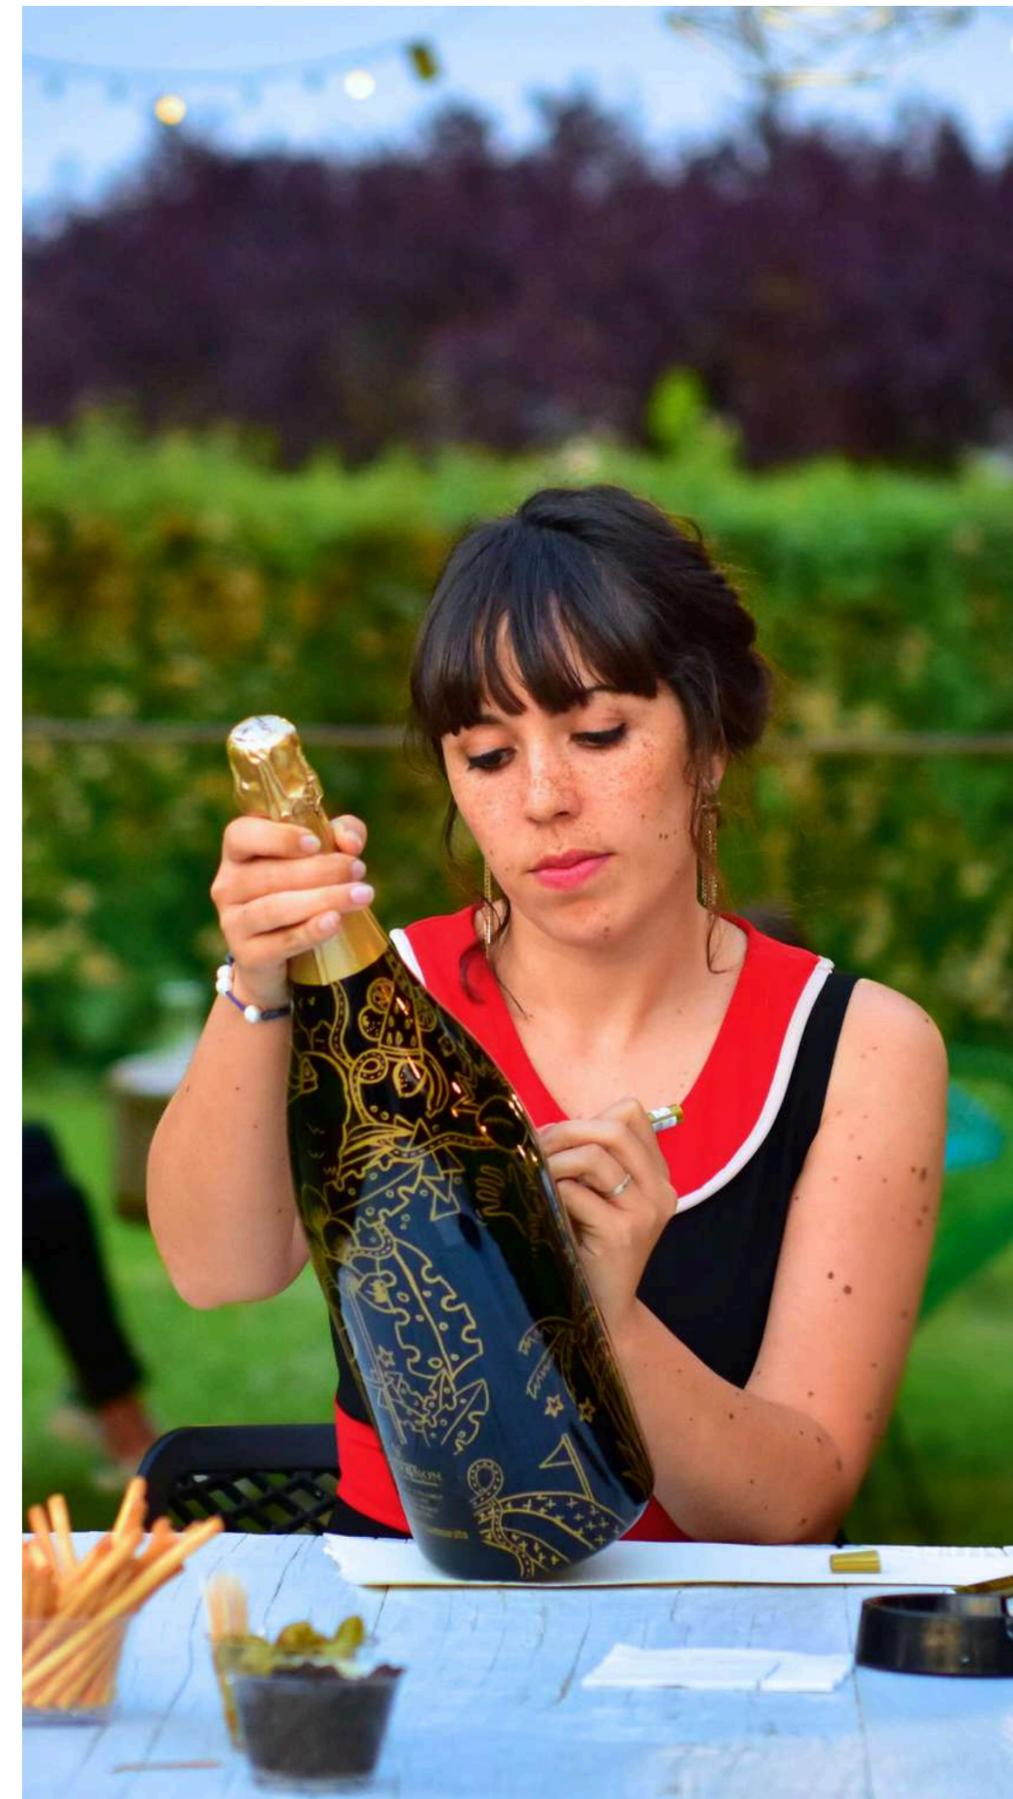

04

Live CUSTOMISATIONS

From calligraphed glasses to personalized tote bags or custom wedding favors, I transform items in real time in a way that is both engaging and meaningful.

Guests love watching the creation of their names, designs, or messages just for them, turning simple objects into beautifully crafted keepsakes they'll treasure.

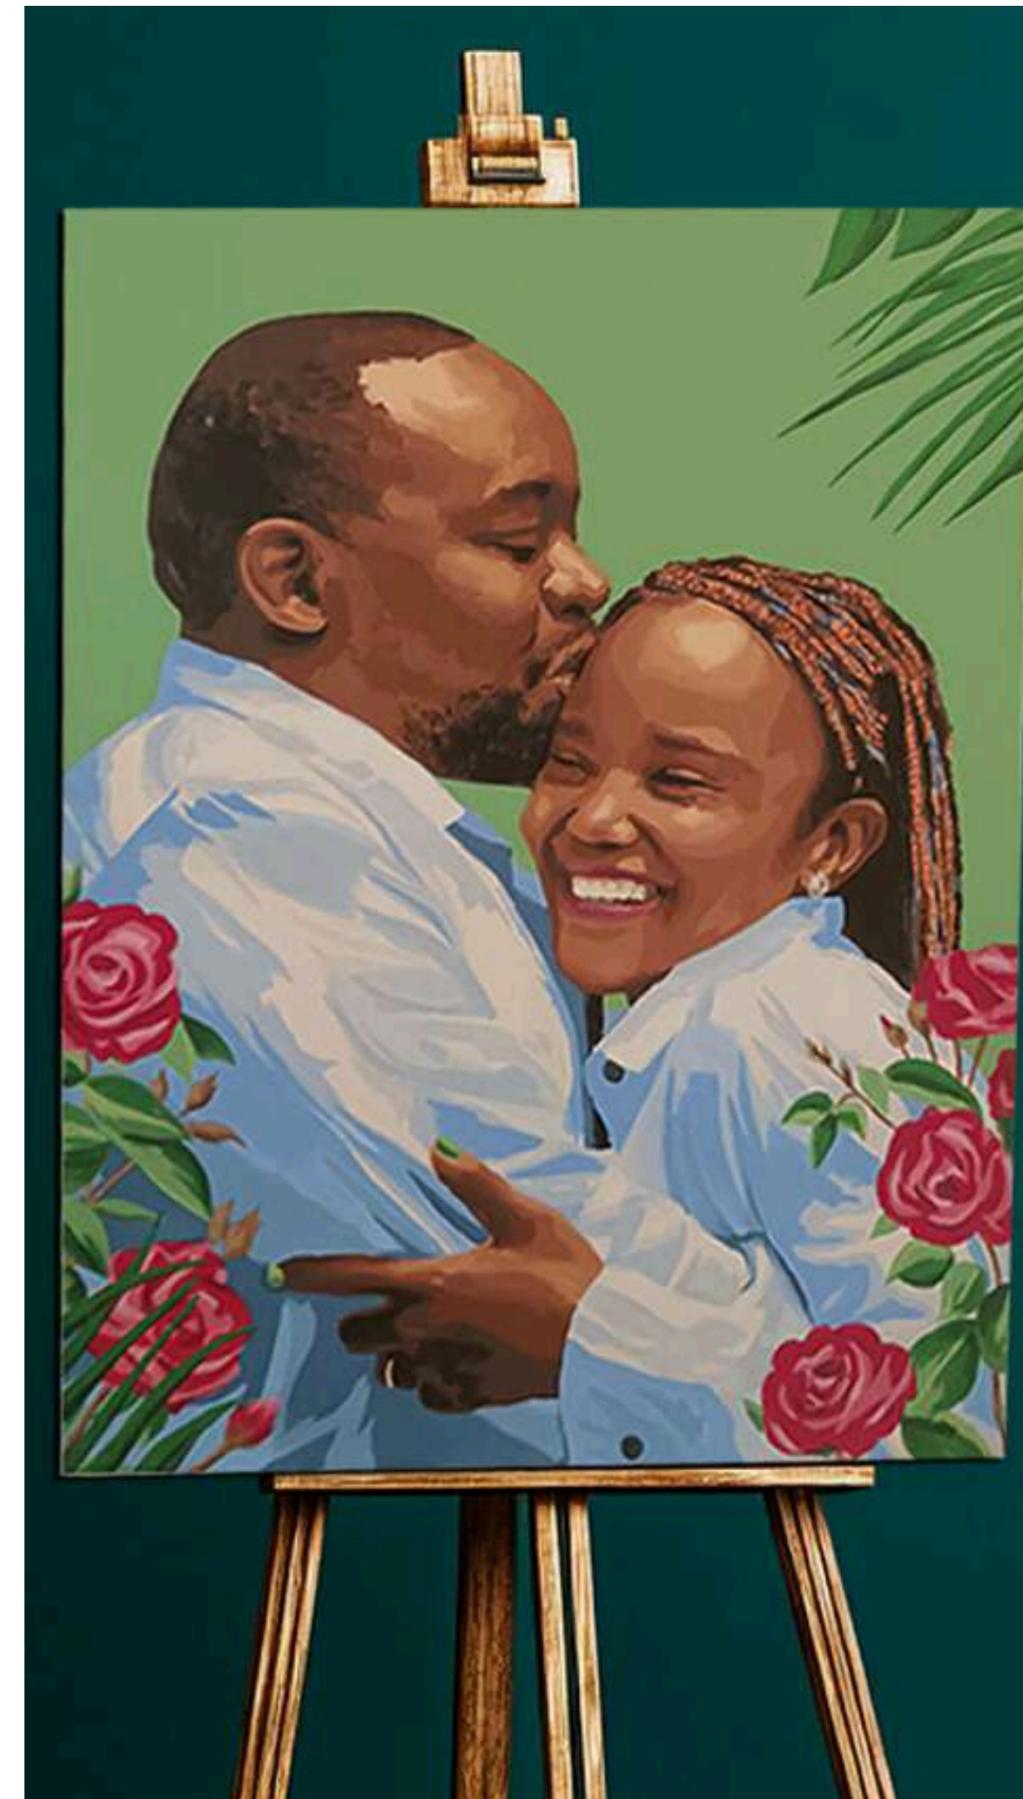

05

Commission ART

Commissioned art is a meaningful way for couples to celebrate who they are beyond any special event. Together, we create a bespoke piece that captures their story, their bond, and the essence of their shared life.

This personalised artwork becomes more than decoration, it transforms into a unique heirloom, infused with their emotions and crafted exclusively for them. A timeless keepsake that honours their journey and can be cherished for years to come.

06

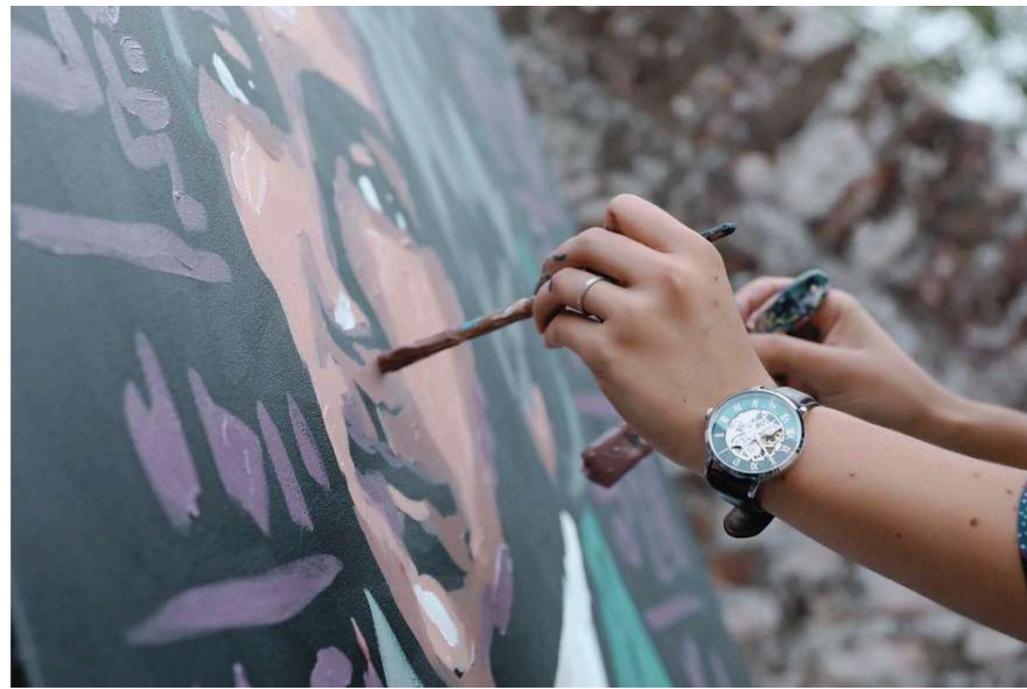

Other SERVICES

In addition to live painting, I offer a range of creative services to make an event truly unique.

From immersive **virtual reality artworks** and personalized **speed paintings** to vibrant **murals** and **interactive art workshops** for guests, each experience brings an original and unexpected artistic dimension to your celebration.

These out-of-the-box services add emotion, creativity, and a distinctive touch that make any event truly unforgettable.
